CONTENTS OF VOLUME 7

Volume 7 No. 1 1998

PETER MACHAMER / Philosophy of Science: An Overview for Educators 1–11

ROGER STUEWER / History and Physics 13–30

BRIAN P. COPPOLA & DOUGLAS S. DANIELS / Mea Culpa: Formal Education and the Dis-Integrated World 31–48

COLIN GAULD / Solutions to the Problem of Impact in the 17th and 18th Centuries and Teaching Newton's Third Law Today 49–67

ALAN CHALMERS / Retracing the Ancient Steps to Atomic Theory 69–84

ALBERTO VILLANI & SERGIO ARRUDA / Special Theory of Relativity, Conceptual Change and History of Science 85–100

Book Notes 101–103

Contributors 105–106

Volume 7 No. 2 1998

MANSOOR NIAZ / A Lakatosian Conceptual Change Teaching Strategy Based on Student Ability to Build Models with Varying Degrees of Conceptual Understanding of Chemical Equilibrium 107–127

ENRIQUE JIMÉNEZ GOMEZ & EUGENIO FERNANDEZ DURAN / Didactic Problems in the Concept of Electric Potential Difference and an Analysis of its Philogenesis 129–141

STACY K. ZELL / Ecofeminism and the Science Classroom: A Practical Approach 143–158

COLIN GAULD / Making More Plausible What is Hard to Believe: Historical Justifications and Illustrations of Newton's Third Law 159–172

MICHAEL E. GORMAN & J. KIRBY ROBINSON / Using History to Teach Invention and Design: The Case of the Telephone 173–201

ELSPETH CRAWFORD / Michael Faraday on the Learning of Science and Attitudes of Mind 203-211

Book Notes 213–217

Contributors 219–220

Volume 7 No. 3 1998

SELECT PAPERS OF THE 1996 EUROPEAN PHYSICAL SOCIETY INTERDIVISIONAL CONFERENCE, BRATISLAVA, SLOVAKIA

Assistant Editor: Juraj Sebesta

Editorial 221–223

JURAJ SEBESTA & RUDOLF ZAJAC / Science and Education in a Totalitarian Regime: The Case of Slovakia 225–229

HELGE KRAGH / Social Constructivism, the Gospel of Science, and the Teaching of Physics 231–243

NAHUM KIPNIS / Theories as Models in Teaching Physics 245–260

FANNY SEROGLOU, PANAGIOTIS KOUMARAS & VASSILIS TSELFES / History of Science and Instructional Design: The Case of Electromagnetism. 261–280

ANTONIO MORENO GONZÁLEZ / Science in Quarantine: Academic Physics in Spain (1750-1900) 281–300

ALEXANDER VAVREK / The Bulgarian Academy of Sciences in Transition from Learned Society to Totalitarian Academy (1944-1949) 301–306

BOGDAN CONSTANTINESCU & ROXANA BUGOI / Romanian University Physics Teaching and Research (1860-1940) 307–311

LÁSZLÓ KOVÁCS / Zoltán Bay and the First Moon-Radar Experiment in Europe (Hungary, 1946) 313–316

LUDWIK KOSTRO / Albert Einstein's Hypothetism 317–322

Contributors 323–325

Volume 7 No. 4 1998

RAFAEL BLANCO & MANSOOR NIAZ / Baroque Tower on a Gothic Base: A Lakatosian Reconstruction of Students' and Teachers' Understanding of Structure of the Atom 327–360

EDUARD GLAS / Fallibilism and the Use of History in Mathematics Education 361–379

J. RANDY MCGINNIS & J. STEVE OLIVER / Teaching About Sound: A Select Historical Examination of Research 381–401

MARTIN MAHNER / Operationalist Fallacies in Biology 403–421

Contributors 423

Volume 7 No. 5 1998

MICHAEL OTTE / Limits of Constructivism: Kant, Piaget and Peirce 425–450

FABIO BEVILACQUA & STEFANO BORDONI / New Contents for New Media: *Pavia Project Physics* 451–469

VARDA BAR & BARBARA ZINN / Similar Frameworks of Action-at-a-Distance: Early Scientists' and Pupils' Ideas 471–491

POUL V. THOMSEN / The Historical-Philosophical Dimension in Physics Teaching: Danish Experiences 493–503

Contributors 505

Volume 7 No. 6 1998

THE NATURE OF SCIENCE AND SCIENCE EDUCATION: PART 2

Associate Editors: Norman G. Lederman, William F. McComas & Michael R. Matthews

Editorial 507–509

WILLIAM F. McCOMAS, MICHAEL P. CLOUGH & HIYA ALMAZROA / The Role and Character of the Nature of Science in Science Education 511–532

CATHLEEN C. LOVING / Cortes' Multicultural Empowerment Model and Generative Teaching and Learning in Science 533–552

IBRAHIM HALLOUN & DAVID HESTENES / Interpreting VASS Dimensions and Profiles 553–577

MICK NOTT & JERRY WELLINGTON / Eliciting, Interpreting and Developing Teachers' Understanding of the Nature of Science 579–594

NORMAN G. LEDERMAN, PHILIP WADE & RANDY L. BELL / Assessing Understanding of the Nature of Science: A Historical Perspective 595–615

JAMES T. ROBINSON / The Nature of Science and Science Teaching (orig. 1965) 617–634

JAMES T. ROBINSON / Reflections on Science Teaching and the Nature of Science 635–642

Contributors 643–645

Volume Contents 647–650
